**Amendments to the Drawings**

The attached sheet of drawings includes changes to Fig 4. The sheet replaces the original sheet including Fig 4.

Attachment: Replacement Sheet for Figure 4.

## **REMARKS**

### **Status of the Claims**

- Claims 2-12 and 14-24 are pending in the Application after entry of this amendment.
- Claims 1-4, 8, 9, 11, 13-16, 20, 21 and 23 stand rejected.
- Claims 5-7, 10, 12, 17-19, 22 and 24 are objected to.
- Claims 2-4, 6-12, 14-17 and 19-24 are currently amended by Applicants.
- Claims 1 and 13 are cancelled by Applicants.

### **Allowable Subject Matter**

The Examiner states that Claims 5-7, 10, 12, 17-19, 22 and 24 would be allowable subject matter if rewritten to overcome the rejections and objections set forth in the Office Action dated 5/16/2005. Applicants thank the Examiner for the identification of allowable subject matter and address the rejections and objections below.

### **Claim Rejection Pursuant to 35 U.S.C. §101**

Claims 1-12 are rejected under 35 U.S.C. §101 for being directed to non-statutory subject matter. Specifically, the Office Action dated 5/16/2005 asserts that Claims 1-12 are not tangibly embodied in a manner as to be executable. Applicants have amended Claim 10 to incorporate Claim 1 and have amended the preamble to direct the claim to a method for modeling a computing architecture, the method executed on a computer. Applicants submit that clarifying that the method is executed on a computer directs amended Claim 10 to be statutory subject matter. Applicants request reconsideration and withdrawal of the 35 U.S.C. §101 rejection for independent Claim 10 and dependent Claims 2-9, 11 and 12.

### **Claim Objections and Amendments**

Claims 5-7, 10, 12, 17-19, 22 and 24 are objected to as being dependent upon non-allowed base claims. The Examiner states that Claims 5-7, 10, 12, 17-19, 22 and 24 would be allowed if rewritten to overcome rejections and objections and to include all of the limitations

of the base claims and any intervening claims. In addition, Claims 14-17 and 19-24 are objected to because the dependent claims have preambles incompatible with their base claims.

Applicants have amended Claim 10 to include base Claim 1 in order to present the allowable subject matter of Claim 10 in independent form. Applicant has also amended the preamble as noted above to recite statutory subject matter. Thus, rewritten Claim 10 is in a form for allowance. Claims 2-4, 6-9, 11 and 12 are amended to depend from now-allowable independent Claim 10.

Applicants have amended Claim 17 to include base Claim 13 in order to present the allowable subject matter of Claim 17 in independent form. Claims 14-16 and 19-21 are amended to depend from now-allowable independent Claim 17. This amendment also overcomes the incompatible preamble objection.

Applicants have amended Claim 22 to include independent Claim 13 in order to present the allowable subject matter of Claim 22 in independent form. Claims 23 and 24 are amended to depend from now-allowable independent Claim 22.

Rejected base Claims 1 and 13 are cancelled by Applicants. Accordingly, Applicants submit that pending Claims 2-12 and 14-24 are now in allowable form. Applicants respectfully request withdrawal of the 35 USC §101 rejections as well as the stated objections in light of the amendments made herein.

### **Claim Rejections Pursuant to 35 U.S.C. §103**

### **Drawing Amendments**

Applicants have attached a revised Figure 4 which modifies the reference designator labeled "340" to be "440". The reference designator "440" on Figure 4 now comports with the use of the same designator on page 10 of the specification. Applicants submit that no new matter is added as a result of the revised drawing.
